

The Homework Program is at your School

Parent Information

Supervised by a qualified teacher, the homework program is now running at your school.

Times: The program runs Monday to Thursday of the school term from final bell to 5.30pm. You may collect your child at any time up to 5.30pm.

The day's events: Students attending the program are given a healthy snack before completing their homework tasks for the day. At around 4pm, the students have a break under the teacher's supervision, to take part in a short game or a fun activity.

Extension Learning: Students who have completed their homework are given the opportunity to advance their literacy and numeracy. Students have access to a work book at their year level, designed to improve their language and math skills.

Flexible enrolment: The enrolment process is highly flexible. The night before class (or early that morning), you can select the day or days you'd like to enrol your child.

Enrolment website: To find out more or to enrol your child on the program, please visit www.HomeworkSupervision.com.au
